

HEET PATEL

Data Science & MLOps Enthusiast | Pursuing MSc Computer Science in Data Science & Analytics
Email: patelheet1412@gmail.com | Phone: +33 07 52 94 55 58 | LinkedIn: linkedin.com/in/heetpatel1412/

EDUCATION

MSc Computer Science in Data Science & Analytics 2026 – Present
EPITA, Paris, France

Bachelor of Science in Information Technology 2022 – 2025
Charotar University of Science and Technology, Gujarat, India

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript, SQL.

Data & ML: pandas, NumPy, scikit-learn, Machine Learning algorithms, Data Analysis.

MLOps & Infrastructure: Docker, Docker Compose, Apache Airflow, Git/GitHub, FastAPI, Streamlit.

Web Technologies: Django, HTML5, CSS3, Tailwind CSS, JavaScript.

Databases: MySQL, SQLite, Database Design.

PROJECTS

Medical Insurance MLOps Pipeline – Team Lead (5-person team)

Docker, Apache Airflow, Python, FastAPI, GitHub

- Led infrastructure design and build from scratch: Docker Compose stack, FastAPI/Streamlit scaffolds, and a complete Airflow 3 ingestion DAG.
- Owned pull request reviews and team coordination across a main/develop/feature branch workflow on GitHub.
- Resolved Airflow 3 migration issues (DAG Processor separation, JWT secret alignment) and cross-platform environment issues.

Music Taste Prediction – Personal ML Project

Python, scikit-learn, Streamlit, Plotly

- Built and deployed a Random Forest classifier trained on a 114k-track Kaggle dataset of Spotify audio features.
- Iterated from an initial working build to a polished Streamlit UI with interactive Plotly visualizations and embedded audio players.

TradeVerse – Real-Time Stock Monitoring & Trading Platform

Django, Python, JavaScript

- Built a backtesting engine using Exponential Moving Average (EMA) strategies, processing historical data for multiple timeframes to evaluate trading performance metrics.
- Developed a real-time data pipeline serving live stock market data via the yfinance API, with a watchlist and alert-notification system.
- Optimized database queries, reducing data retrieval time by 40%.

ACHIEVEMENTS

- IELTS: Achieved Band 7.0 – Demonstrating strong English proficiency for international collaboration.
- SAT: Score of 1200 – Showcasing analytical and problem-solving capabilities.

CORE COMPETENCIES

Technical: Algorithm Design, Data Structures, System Design, Database Optimization, Testing & Debugging.

Soft Skills: Analytical Thinking, Problem Solving, Team Leadership, Communication, Adaptability, Time Management, Research-Oriented.

ADDITIONAL INFORMATION

Languages: English (Fluent), Hindi (Native), Gujarati (Native), French (Learning)

Interests: Contributing to open-source projects, staying current with emerging technologies, technical research, experimenting with new development tools and frameworks.
